Take Control of Your Blood Pressure

TEST IN PROGRESS

The cuff is now being inflated. Be still and quiet during the test. Your results will appear when the test is complete.

Systolic: is the pressure during your heartbeat.

Diastolic: is the pressure between your heart beats.

Use of the **Lifeclinic Kiosk** is not a substitute for a physician. Only a physician is qualified to interpret the significance of blood pressure measurements. Self diagnosis or self adjustment of medication is dangerous.
